

# FMS Singles

is a user friendly drive/rest validator and planner for the heavy transport industry. This program aims to provide transport operators, labour hire companies and end customers proof of compliance. It is dead simple; put in the run sheet work diary or logbook reference, put in the date, enter the times and it is done – 15 to 30 seconds per day. Then plan your next 14 days with confidence – having your actual history as your base information; there is no guessing involved.

## Attributes of the Program:-

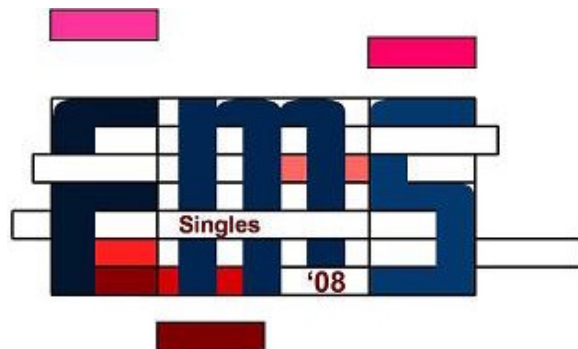

- Metro and long distance drivers
- Standard Hours, Basic FM
- Tamper proof 365+ day database
- Simple hh.mm input
- Calculates next 7/14 day hours
- Incident (CAR) reports & audit trail
